### Coronavirus COVID-19

Dear Sir or Madam,

We would like to inform you, that we have complied with our duty of care as a food manufacturer regarding the novel virus COVID-19 and have taken all possible measures to counter an uncontrolled spread in our company.

For this purpose, an internal crisis plan was created, which is effective in the event of an emergency in order to maintain the availability of our products and to ensure the health of our employees. Furthermore, the hygiene management in the company was expanded to prevent the risk of infection. In addition to numerous options for hand disinfection, there is increasing awareness-raising work.

This also includes staying in risky areas and dealing with suspicious symptoms. At the moment there are no restrictions in terms of raw material procurement, production and shipping of our goods. The inventory of raw materials from high-risk areas was increased preventively. We also keep in close contact with the suppliers and keep an eye on what's going on in the market.

We can exclude the risk of contamination of our finished products based on current knowledge.

We hope that these measures will help to master the current situation without prejudice and to maintain our quality level.
